### Directions:

1. Create box bottom using chip board
  - a. Start with a 6" x 6" piece of chip board (use the support piece from the designer series paper packs)
  - b. Score at 1" and 5". Turn and score at 1" and 5"
  - c. Burnish all the folds
  - d. See the image for where to cut side flaps
    - i. *Helpful tip: cut the cut line so's that it creates a V cut.*
  - e. Using Tear n Tape or Fast Fuse on the flaps, fold and adhere to create the box.
2. Decorate the sides of the box
  - a. Cut (4) 1" x 4" pieces of cardstock
  - b. Using Snail adhesive, adhere to sides of box.
3. Cut 2 pieces of chip board to 4 ½" x 4 ½" (one is the bottom of the box and one is the top cover of the box)
  - a. Corner round all corners using the Detailed Trio Punch
4. Cut 2 pieces of coordinated cardstock or designer series paper to 4 ½" x 4 ½".
  - a. Corner round all corners using the Detailed Trio punch
  - b. Using Snail adhesive adhere both pieces of DSP – one on each piece of chip board.
5. Using Tear n Tape or Fast Fuse, adhere the box to one of the DSP/Chipboard pieces.
6. Using chip board, cut 1" x 5" piece to create SWIVEL MECHANISM
  - a. SCORE at: 1", 2", 3", and 4"
  - b. Burnish and fold at all score lines and adhere closed using Tear n Tape
  - c. Punch hole center of top section
  - d. Adhere to side and bottom using Tear n Tape or Fast Fuse
7. Place the top of the box under the bottom of the box and using pokey tool, punch through to mark the top of the box where to punch the hole.
  - a. Punch hole at the mark.
8. Attach the top of the box using a brad.
9. **Embellish:** Using the **Butterfly Duet Punch**, punch 2 times to create 2 small and 2 large butterfly's from coordinating cardstock. Cut 2 lengths of coordinating bakers twine and adhere to one side of the butterfly's. Using **Snail adhesive**, adhere both butterfly's together, sandwiching the bakers twine.
  - a. Wrap bakers twine around the brad.
  - b. Decorate the front butterfly with **Basic Pearls**
